

Press & Media Kit

QR code labels for every box. AI photo scanning. Instant search from any phone. Stop opening boxes just to see what's inside.

BOILERPLATE

BoxQR is a QR code labeling app for boxes and storage bins. Stick a QR sticker on any box, snap a photo of what's inside, and search everything from your phone later. It works for home storage, garages, basements, attics, moving boxes, storage units, and seasonal storage. BoxQR is available on the web and iOS, with Android in development.

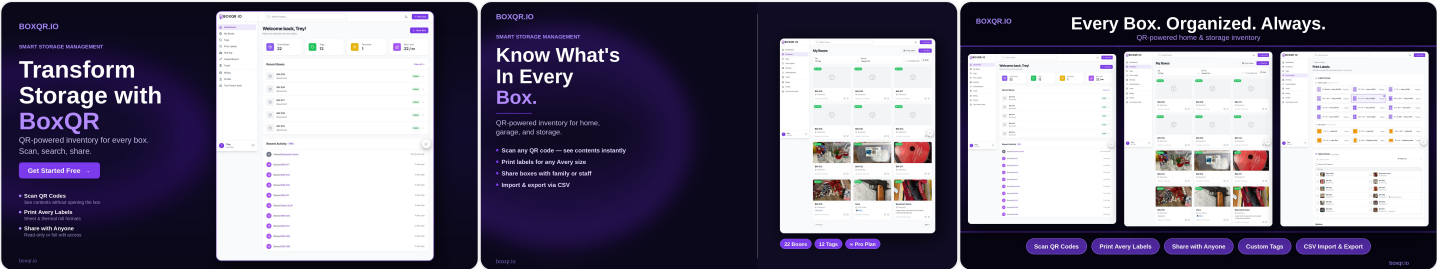

QUICK FACTS

- QR code label generation for boxes, bins & totes
- AI-assisted photo scanning of contents
- Instant search across every labeled box
- Available on Web and iOS (Android in development)
- Used for home, garage, moving & storage-unit organization

WHO IT'S FOR

- Households organizing garages, attics & basements
- People moving homes or into storage units
- Seasonal storage — holiday decor, camping gear
- Small businesses tracking inventory bins
- Anyone tired of opening boxes to find one thing
